

WIN a Wildchild Awesome Animation Experience

Animation has always been an important part of film making and it's more popular now than ever before in cinemas and on our TV screens. Just think of those memorable plasticine characters such as Morph, Creature Comforts and Wallace and Gromit.

This summer, Wildchild Activities are running animation workshops so that children can learn and experience more about this specialist area. These exciting, hands-on workshops will teach children how to draw simple characters and how to model characters out of plasticine ready for animation and filming. Everyday objects and voices will be used to create and record sound effects to go with the characters. Children will also get a chance to try 'pixelation' which involves animating and filming each other to create the appearance of flying or ice-skating. After the workshop each child will receive a DVD of their finished film.

For your chance to win a place at one of Wildchild's Animation Experiences answer the following question:

Which was the first full length animated Disney Film?

- A) Snow White and the Seven Dwarfs
- B) Mickey Mouse and the Castle of Doom
- C) The Curse of the Were Rabbit

To enter send your answer with your name and full address and telephone number by email to editor@familiesherts.co.uk with the subject line Animation OR send a postcard to: Awesome Animation Competition, Families Herts, PO Box 434, Pinner HA5 9AH
Deadline: 31st August.

The next course date is Thursday 29th October at St Albans Girls' School. Further dates for 2010 will be scheduled during school holidays, exact dates to be confirmed. The winner's voucher will be valid for 12 months from date of issue.

All correct entries will go into a draw. The first entry drawn will win. The Editor's decision is final. No cash alternative.

Wildchild's Awesome Animation workshops will take place throughout the Summer. For details of dates, locations and costs call 0845 3717099 or visit www.wildchildactivities.com

Realise your child's potential

Maths and English After-School Study Programmes

Kumon can help your child progress with their maths and English studies, boost their confidence and help them shine.

Kumon programmes:

- work at a pace that is tailored to your child's needs
- give their confidence a real boost
- develop invaluable study habits and concentration
- establish a solid foundation for academic success
- complement the school curriculum

Every day Kumon helps children of all ages and abilities to realise their true potential. With over 600 centres nationwide, it's convenient too.
